

Web Pro

Features and Benefits

Web Pro (Web Conferencing) is an online communication tool that allows individuals to present, share and collaborate on documents and applications with colleagues, customers and business partners anywhere in the world – in real time – to help maximize productivity, work smarter, and save money.

Applications:

- **Sales:** Customer presentations and product demos
- **Marketing:** Product launches, project management, document sharing and polling
- **Public Relations:** Internal/external communications and investor relations
- **Corporate Training:** Orientation seminars, employee education and product demos
- **IT:** Desktop support, project management

Key Benefits:

- ✓ **Convenience:** Pass-code integration: Identical Audio and Web Conferencing codes makes them easy to remember
- ✓ **Ease of use:** Simple web interface facilitates speedy user adoption
- ✓ **Accessibility:** Minimal downloads and low bandwidth requirement makes it more accessible to a greater variety of participants

Service Features:

- Document publishing and document library
- Application sharing
- Remote desktop support
- Transfer presentation control
- White-boarding
- Polling
- File transfer
- Recording
- Chatting
- Hand raising
- Attendee roster
- Up to 1000 participants
- Outlook integration for easy scheduling
